

A man wearing a black cowboy hat, a blue paisley long-sleeved shirt, a brown leather belt, and blue jeans is standing and interacting with a large black safe. He is turning a silver dial on the safe's door. A woman with long blonde hair, wearing a white knit sweater and blue jeans, is sitting on a brown leather couch to the left of the safe, looking towards the man. The safe is a large, black, heavy-duty model with a silver handle and a silver dial. The background is a plain, light-colored wall with a framed picture on the left and a potted plant on the right.

PISTOL BOXES

Quick Touch Vaults

The Surelock Security Company Quick Touch Vaults are small, discreet safes designed to securely hold a pistol or handgun and/or other small documents, wallets or jewelry. These safes have a front opening door that feature Stealth Opening Technology™, so you can access your valuables quickly and quietly with the peace of mind that only Surelock can provide.

QuickTouch Vaults come in three different sizes – 100, 200 and 300 – all feature predrilled holes in the back, along with a steel lock cable for safe and secure mounting options. Great for placement in hidden locations, the Quick Touch Vaults are perfect for your closet or dresser, under a desk, in a garage, cabin or car. In addition to the discreet sizes, these vaults come in a Nighthawk Black Matte finish for added discretion, especially in dark settings. Each model comes equipped with a USB-C adaptor for if your battery goes dead and you're not near power while the 200 and 300 models come with an AC adaptor. The 300-series is also large enough to fit 2 handguns.

Quick Touch Vaults come with both Digital and Digital + Biometric opening options, giving you flexibility of how accessible you want your belongings to be. With the digital keypad, you can create a 4-6 digit combination code that can be shared with those who need access. The added Biometric feature allows for fingerprint access to your vault and has the ability to store up to 20 prints, so you and your loved ones can have prompt and secure access to your unit. A key lock is also featured on both models so you are covered with a key-entry backup plan.

MODEL 300 SHOWN

NEW SLIDER SIDE MOUNTING

The Slider QuickTouch Vault makes reaching your firearm quickly an easy feat with its ability to mount on either side, depending on your needs. Opening the vault is possible with a five-digit entry code, a hard key, or a biometric scanner. The scanner isn't limited to you alone, as it can hold up to 20 fingerprints.

NEW DRAWER TOP & BOTTOM MOUNTING

The Drawer QuickTouch Vault features a top mount, allowing you to add a secure drawer to hold a firearm or other valuables. Open it up with a four-key code or the biometric scanner. The Surelock stealth opening technology allows for quiet access.

NEW FLIP TOP

Keep your valuables safe and secure in the Flip Top QuickTouch Vault. Open it easily and quietly with a six-digit code or biometric scanner. A soft foam interior protects against scratches on a firearm or other valuables. The vault's design also allows for it to be bolted down for added security.

Nighthawk Series

The Nighthawk Mobile Vault is a pistol vault designed to hold one pistol/handgun, small documents, wallets and/or jewelry. The vault opens like a clam shell (top flips backwards) so you can easily access your stored item(s).

There is a security cable that mounts to the left side of the unit to easily attach it to a secure surface, as well as two pre-drilled holes on the bottom for additional mounting options. This Mobile Vault is ideal for placement in a bedside table, in a closet or dresser, under a desk, in a garage, cabin, car + MORE! Easily transportable and securable, you can take the Nighthawk Mobile Vault with you wherever you may travel.

The Nighthawk II features a key lock. This lock operates with one unique key, and does not use any batteries so you never have to worry about changing them out.

WATERPROOF CASES
& ACCESSORIES

Renegade Cases

The Renegade Series was built to withstand the roughest elements. Dustproof and waterproof with reinforced polypropylene construction these rugged, lightweight, durable cases are ready for every adventure you have planned - and even those you don't. The pressure relief valve and rubber seal make sure the contents in your Renegade Case are sealed air tight, while the lockability (lockable with padlocks – sold separately) gives you complete control of who may, or may not, have access to your equipment.

Enjoy fluid easy open and close movements via the upgraded camlock latches. Easy enough to open with your little finger yet hardy enough to tightly secure the dust and waterproof rubber seal.

The soft, customizable foam interior creates the perfect setting for everything you need to store inside your waterproof Renegade Case – from camera equipment, to firearms and beyond. The Renegade Series has you covered, so you can protect what can't be replaced.
